PROFESSIONAL SUMMARY

Entry-level Full Stack Developer skilled in MERN stack with hands-on experience building scalable web applications, RESTful APIs, authentication systems, and cloud-deployed solutions. Strong foundation in React.js, Node.js, MongoDB, and modern frontend frameworks and backend technologies.

EDUCATION

Sree Sakthi Engineering College   Tamilnadu,India
Computer Science and Engineering; GPA: 7.56   **2021 - 2025**
Higher Secondary Certificate   Tamilnadu,India
Government Higher Secondary School | Percentage: 83%   **2018 - 2021**
Secondary School Leaving Certificate   Tamilnadu,India
Government Higher Secondary School | Percentage: 77%   **2017 - 2018**

SKILLS SUMMARY

- **Languages**:   HTML5, CSS3, JavaScript
- **Frontend**:   React.js, Tailwind CSS, Framer Motion
- **Backend**:   Node.js, Express.js, RESTful APIs, JWT Authentication
- **Database**: MongoDB, Mongoose
- **Tools**:   Git, GitHub, Postman, VS Code, Chat GPT, Google AI Studio
- **Platforms:** Render, Netlify, Cloudinary
- **Payments & APIs:** Razorpay API, TMDB API, Gemini API

WORK EXPERIENCE

Full Stack Developer Intern | Novi Tech R&D Pvt Ltd (Remote)
Feb 2025 – May 2025
- Developed and deployed multiple MERN stack applications using React.js, Node.js, Express.js, and MongoDB.
- Built responsive UI components using HTML5, CSS3, JavaScript, and Tailwind CSS.
- Implemented JWT-based authentication, RESTful APIs, and CRUD operations.
- Integrated third-party APIs and cloud services including Cloudinary and Razorpay.
- Worked with MVC architecture, database schema design, and API testing using Postman.

PROJECTS

AI Job Tracker (MERN Stack)
Technology Used: React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT Authentication, Gemini API, Cloudinary, NodeMailer, Zustand, Axios, Tailwind CSS
- Developed a full-stack MERN job application platform with role-based access for admin and users.
- Implemented JWT-based authentication, RESTful APIs, and CRUD operations for job and application management.
- Integrated Gemini API to provide AI-powered resume feedback, cover letter generation, and interview question suggestions.
- Used Cloudinary for secure resume uploads and NodeMailer for automated job status email notifications.
- Built an admin dashboard to manage job postings, track applications, and analyze job data.

E-Commerce Application
Technology Used: React.js, Node.js, Express.js, MongoDB, JWT Authentication, Razorpay API, Upstash Redis, Zustand, Axios, Tailwind CSS
- Built a full-featured MERN stack e-commerce application with role-based access control.
- Implemented product management, cart functionality, order processing, and user authentication.
- Integrated Razorpay payment gateway for secure online transactions.
- Used Upstash Redis for caching frequently accessed data and optimizing application performance.

Netflix Clone
Technology Used: React.js, Node.js, Express.js, MongoDB, JWT Authentication, TMDB API, Zustand, Axios, Tailwind CSS
- Developed a Netflix-style web application with user authentication and personalized watchlists.
- Integrated TMDB API to fetch and display dynamic movie and TV show data.
- Implemented search functionality, trending content browsing, and add/remove watchlist features.

Portfolio Website
Technology Used: React.js, Tailwind CSS, Framer Motion
- Designed and developed a personal portfolio website using React.js, Tailwind CSS, and Framer Motion.
- Showcased projects, skills, and experience with smooth animations and section-based navigation.
